## R E M A R K S.

This medicine has been celebrated under the name of Huxham's Tincture. It is given as a corroborant and stomachic, in doses of two drams or more, to convalescents after long fevers; and sometimes, in larger doses, for the cure of agues in persons averse to taking Bark in substance. There is reason to fear that these spirituous remedies may sometimes have led the way to dram-drinking, especially among the more delicate part of the human race,—a consideration certainly of the utmost importance.

#### R E M A R K.

This Tincture, now first introduced, is not directed to be made of strained Galbanum, — perhaps, lest the straining might render the solution less easy. It is a warm antispasmodic, promising to be of service in flatulency, hysteria, and the asthmatic complaints of old people.

## TINCTURA OPII.

## TINCTURE OF OPIUM.

Take of hard purified Opium, powdered,  
ten drams by weight.

Proof-Spirit of Wine one pint.

Digest for ten days, and strain.

## R E M A R K.

This is intended to supply the place of the  
*Tinct. Thebaica* of the former Dispensatory, which  
was made with wine. It has been found by ex-  
periment, that, of two ounces of strained opium,  
not quite one ounce was dissolved in a pint of  
white wine, — nearly the whole in proof-spirit.  
A. R. Proof-spirit is, therefore, the proper men-  
struum for strained opium, and the proportion  
has been lessened accordingly, to render this a-  
bout the same strength.

TINCTURA OPII CAMPHORATA.

CAMPHORATED TINCTURE OF OPIUM.

Take of hard purified Opium,

Flowers of Benjamin, of each  
one dram by weight.

Camphor two scruples by weight,

Essential Oil of Anise-seed one  
dram by weight.

Proof-Spirit of Wine two pints.

Digest for three days.

R E M A R K.

This medicine, the *Elix. Paregoricum* of the former Dispensatory, instead of being made with rectified, is here made with proof, spirit, the latter being found to suspend a greater proportion of Benjamin than is here ordered. Many have supposed this Tincture to have more effect as an anodyne than might be expected from the quantity of Opium compared with that in the Tinctura

Thebaica;

Thebaica ; and not without reason,—as not more than half the Opium, directed in the latter, was taken up by the menstruum. It is a very good palliative remedy in the tickling coughs of old people given from one dram to two or three, but should seldom be trusted to without other remedies.
