Cætera facillè et dignosci et emendari queunt.

Præterè, quamvis nihil hoc in Codice inscriptum sit, nisi viris in arte expertissimis comprobatum atque perfectum, nonnulla tamen excidisse fatendum est (fateri enim puderet?) quæ emendatione indigent, et quæ hic loci inter errata referri nequeunt. Ea igitur quæ jam, aut ipsi annotavimus, aut ex alienis observatis postmodum collegimus, aut quæ speramus nos ex eruditorum studio et benevolentia deindè suscepturos, ubi primum dabitur locus, sedulo diligenterque, ad plenioris operis utilitatem, addere vel corrigere non dubitabimus.
